Professional Summary

Full-Stack Software Engineer with 2+ years of experience delivering scalable web applications, SaaS platforms, and eCommerce solutions for clients across the USA and Europe. Proficient in JavaScript, TypeScript, React.js, Next.js, Node.js, Django, and Shopify. Competitive programmer with strong expertise in data structures and algorithms.

Skills

- **Programming Languages:** C, C++, JavaScript, TypeScript, Python, C#, Java
- **Frontend Development:**
  - **Technologies:** HTML5, CSS3, SCSS, Sass, Liquid, Razor Templates
  - **Frameworks:** Next.js, Astro, Remix, Tailwind CSS, Bootstrap
  - **Libraries:** React.js, NextUI, Redux, Zustand, Axios, GSAP
- **Backend Development:**
  - **Runtimes & Frameworks:** Node.js, Express.js, Django, Django REST Framework, ASP.NET MVC
  - **Authentication:** JWT, SimpleJWT, bcryptjs
- **Databases:**
  - **Relational:** PostgreSQL (Neon, Supabase), MySQL
  - **Non-relational:** MongoDB
  - **ORM / Query:** Prisma, Django ORM
- **DevOps & Tools:**
  - **Version Control:** Git, GitHub, GitLab
  - **Deployment:** Vercel, Netlify, Render
  - **Containerisation:** Docker
- **E-commerce & CMS:** Shopify Theme Development, Shopify Liquid

Experience

Junior Software Engineer, Technext Limited – Sylhet, Bangladesh — Aug 2024 – Jul 2026

Greysheet - Currency pricing platform *(ASP.NET MVC 5, Razor, Bootstrap, jQuery, ApexCharts)* — Client · USA

- Built responsive UI for a coin and currency pricing platform serving collectors and dealers across 15+ page modules.
- Developed marketplace, shopping cart, and subscription-gated pricing tool interfaces with real-time API data integration.
- Implemented mobile-first responsive layouts for API pricing, dealer directory, news, and publication pages.
- Collaborated on multi-environment deployment workflows (Dev, Beta, LiveTest, Production) ensuring consistent UI across all stages.

OneSuite - SaaS Marketing Website *(Astro, React, TypeScript, Tailwind CSS)* — Own Product

- Built a multilingual marketing site for a SaaS platform using Astro, React, TypeScript, and Tailwind CSS with a dual i18n system serving 140+ static pages.
- Developed a modular content architecture with 155+ reusable components, dynamic routing, and TypeScript-based localization to support 9 product features and 7 competitor comparison pages.
- Implemented SEO infrastructure with Google Sheets-driven metadata, JSON-LD structured data, auto-generated sitemaps, and locale-aware Open Graph tags for multi-language indexing.
- Engineered a performant static site using Astro SSG with GSAP/Motion animations, optimized font loading, and a hybrid Astro + React component strategy for zero-JS-by-default pages with selective client-side interactivity.

Bmboo Lighting - Shopify Storefront *(Shopify, Liquid.js, CSS)* — Client · USA

- Upgraded product pages with image zoom, variant swatches, a sticky add-to-cart bar, and product specification toggles for a better shopping experience.
- Fine-tuned spacing, typography, and layout across 104 sections and 165+ snippets to ensure visual consistency on all devices.
- Built and styled category-specific collection templates with tailored banner layouts, card designs, and showcase components.

- Enhanced quick view modals, cart drawer interactions, free shipping progress bars, and mobile sticky navigation to reduce drop-off.

Intern Software Engineer, Technext Limited – Sylhet, Bangladesh May 2024 – Jul 2024
DermaQuestInc *(Shopify, Liquid.js, CSS, JavaScript)* Client · USA

- Converted a custom design into a fully functional Shopify storefront for a 20+ year professional skincare brand with a mobile-first responsive layout.
- Built an international checkout flow with multiple payment methods and a dynamic product catalog with intuitive navigation for a global customer base.
- Applied SEO best practices and performance optimisations for fast load times and improved organic search visibility.
- Delivered a scalable storefront architecture aligned with the client's growth strategy, translating design concepts into a production-ready digital store.

Personal Projects

Sunnah Cure - Appointment Booking Platform *(Next.js, Django REST Framework, PostgreSQL)* Full Stack
Live | GitHub

- Built a full-stack Islamic medicine platform with 3 role-based dashboards, 34 pages, and 40+ REST API endpoints covering the complete appointment lifecycle.
- Secured the backend with JWT auth, FSM appointment states, and Stripe + bKash/Nagad payment integration for the Bangladeshi market.
- Implemented a 4-step health assessment, real-time doctor-patient messaging via Pusher, and automated notifications via Django signals.
- Deployed a bilingual (English/Bengali), production-ready app on Vercel + Render with Neon PostgreSQL.

MoneyPilot - Personal Finance Dashboard *(Next.js, PostgreSQL, Prisma, TypeScript)* Full Stack
Live | GitHub

- Built a full-stack finance dashboard covering expense tracking, budgets, savings goals, net worth, and a lend/borrow ledger in one responsive app.
- Implemented a client-first architecture with Zustand for instant optimistic UI updates synced to PostgreSQL in the background for an app-like experience.
- Added AI-powered spending insights, automatic merchant categorization, CSV import, and anomaly detection across a full analytics and reporting suite.
- Delivered dark/light theming, multi-currency support, PDF export, and a calendar view, with custom JWT auth and middleware-protected API routes.

Pharma Nest BD - Online Pharmacy Platform *(Next.js, PostgreSQL, Prisma, TypeScript)* Full Stack
Live | GitHub

- Built a production-ready pharmacy e-commerce platform with medicine browsing, OTC/Rx filtering, cart, coupons, and a 7-stage order lifecycle (pending → delivered).
- Implemented prescription upload with a pharmacist review workflow and bKash, Nagad, Rocket, and COD payments with admin screenshot verification.
- Delivered a bilingual (English/Bengali) UI with BD address hierarchy (Division → District → Upazila), JWT cookie auth, and role-based customer and admin dashboards.
- Architected a clean layered codebase (services → repositories → API → Prisma) with Zod validation, Zustand state management, and 40+ REST endpoints, deployed on Vercel.

Uni Cover Page Generator - University Assignment Tool *(React, TypeScript, Vite, Tailwind CSS)* Frontend
Live | GitHub

- Built a client-side tool for generating university cover pages with 25 design templates across 5 categories and a real-time A4 live preview.
- Implemented PDF/PNG/JPG/WEBP export via html2canvas and jsPDF with per-field visibility toggles and independent font customization.
- Architected the app with 3 custom hooks (form state, template management, export logic), keeping the codebase clean and separated by concern.
- Delivered logo upload with base64 encoding, 3 layout modes, and dark template support, with zero backend and deployable to any static host.

Education

Sylhet Engineering College (affiliated with SUST) Jan 2019 – Feb 2024
B.Sc. in Computer Science and Engineering (CSE)
CGPA: 3.80 / 4.00

Competitive Programming

- **Codeforces** (tanjil-ahmed): 1850+ problems solved · Max rating: 1678 (Expert)
- **CodeChef** (tanjilvai): 100+ problems solved · Max rating: 1731
- **LightOJ** (ahmedtanjil1): 70+ problems solved
- **UVa** (TanjilAhmed): 50+ problems solved

Publications

- S-DrivingRecords: Blockchain Based Enhancing Trust and Transparency in Driving Records Using Hyperledger Fabric (IEEE Xplore, 2024)
- SafetyNet: A Decentralized Police Complaint Management System for Bangladesh Using Blockchain Technology (IEEE Xplore, 2024)

Achievements

- **Qualified**, ICPC Asia Dhaka Regional Contest 2023
- **Qualified**, National Collegiate Programming Contest (NCPC) 2023, Jahangirnagar University
- **Competed**, Inter-University Programming Contests: BUET IUPC 2022, SUST IUPC 2023, SUST IUPC 2024
- **1st Runners Up**, SEC Idea Hackathon 2022
- **2nd Runners Up**, CSE DAY Programming Contest 2020

Leadership & Activities

- **Vice President**, SEC Programming Club (Feb 2023 – Feb 2024)
- **Treasurer, then Vice President**, SEC CSE Society (Mar 2023 – Jun 2024)
- **Programming Workshop Instructor**, ACM Lab, Sylhet Engineering College (Mar 2020 – Apr 2024)
- **Problem Setter and Judge**, CSE Day 2024, Sylhet Engineering College
